

## CAST ACRYLICS

Cgates' Cast Acrylic sheets are bright and clear with excellent transparency. They are easy to thermoform and can be used for long-life UV-resistant products for visual communication, architectural and interior design. Separation and partition of spaces.

Suitable also for shop shelving, POS units, fashion, and medical products, as well as backlit signage and other display applications.

### APPLICATIONS

- Signage & Lettering
- Architectural Glazing, Skylights
- Medical & Industrial Barriers, Guards & Shields
- Noise Reduction Barriers
- Retail & Exhibition Stands
- Point-of-purchase (POP) displays
