

FLEXIBLE MEDIA

BANNERS

Cgate offers a variety of flexible media solutions for all large-format indoor and outdoor advertising. Seamless banner up to 5m wide can be printed directly with digital printers using solvent, eco-solvent, Latex, direct dye sub and UV inks as well as with traditional silk-screen process.

Cgate's flexible media includes laminated, coated, mesh, and double-sided blockout materials, OVV, printable wallpaper, textiles, SAV and reflectives. B1 fire retardant and UL-94 V0 standard are optional for most products.

The high-quality banner material is surface sealed, tear-resistant, as well as UV and weather-resistant.

APPLICATIONS

- Billboards
- Large Format advertising on buildings
- Air permeable mesh for building cover
- POS display
- Truck side curtains
- Trade show displays
- Marquees
- Advertising for sporting events and music venues
