

FREE-FOAM PVC

Cgates' Free-Foam PVC panels supplied have a one-cell structure and a very smooth surface, which is also suitable for direct printing with digital flatbed printing or with traditional silk screen. They are supplied with a protective film on one side, which is easily removed.

The white surface of Cgates' Free-Foam PVC panels is excellent for printing. Furthermore, the panels can also be supplied in a range of colours. They are moisture, mildew and fungus resistant as well as being strong and hard-wearing.
